

PAIS 4 Features

New and Improved

- ◀ **Automatic Data Updates.**
Keep your EPC content current with weekly Internet data updates.
- ◀ **Enhanced VIN Filtering.**
Reduce choices to those only applicable to the VIN entered.
- ◀ **History/Supersession Data.**
Order the most current parts and reduce obsolete parts inventory.
- ◀ **Technical Service Bulletins.**
Find TSBs in-line with parts data or search by TSB number to help diagnose and repair vehicles.
- ◀ **E-mail.**
Send shopping lists and illustrations directly to customers from PAIS.
- ◀ **Feedback.**
Provide instant feedback to Snap-on with screenshots to quickly and clearly share information.
- ◀ **User-Added Notes.**
Apply an individual note to a specific search, a specific catalog, or to all catalogs.
- ◀ **International Product.**
Global parts data available to allow you to service any vehicle.

Continued Excellence

- ◀ **Authorized Data.**
Complete parts data comes directly from Chrysler.
- ◀ **Intuitive Interface.**
Straight-forward interface easy for new users but remains versatile for advanced users.
- ◀ **Indexes.**
VIN-filtered indexes ease the process of locating parts.
- ◀ **Shortcuts.**
Experienced users can save time with familiar keyboard navigation.
- ◀ **Side-by-Side Display.**
View parts text with their illustrations on the same screen.
- ◀ **Mopar Alternative/V-line Reference.**
Provide customers with competitive quotes and part options.
- ◀ **Parts Lists.**
Create and save convenient parts order lists to effectively follow up with every customer.
- ◀ **DMS Integration.**
One-stop shopping for pricing and availability information.
- ◀ **Create Bookmarks.**
Switch between multiple part searches, efficiently, on the fly.
- ◀ **Print.**
High-quality text and illustrations.
