9 reasons

our associates consider SBS

a great place to work

Snap-on Business Solutions

GLOBAL HEADQUARTERS
RICHFIELD, OHIO
Snap-on is truly a dynamic and fast paced working environment. You are in the middle of it all ranging from working with the Original Equipment Manufacturers to the end customer and everything in between.

MILTON
Product Management
Snap-on provides a great work environment. I am always learning and refining my skills. The work I do here is very rewarding and directly impacts the quality the customer receives.

KATHLEEN
Software Engineering
The best part about working in this environment is the “can-do” attitude and belief among associates that, no matter how large the challenge happens to be, everyone will pull together as a team to find a solution.

PHIL
Quality Assurance
Snap-on Business Solutions provides a rich environment, full of opportunities for any software engineer who enjoys the satisfaction rooted in complex problem solving. Having **the ability to flexibly solve mentally stimulating problems** and see your hard effort result in a satisfied customer cannot be paralleled.

**ANDY**

*Software Architecture*
The best part about working for Snap-on Business Solutions for me is the friendship. There is a level of respect and caring that exists not just within a department, but with the entire company.

STEVEx
Technical Support
There are a lot of bright people with a vast amount of knowledge that work at Snap-on. Working with my teammates and collaborating with other teams helps me grow and become a better programmer.

Snap-on is about finding the best, most efficient way, to develop our product. We put the time in to figure out what worked and why something did not work. Doing that alone helps us to grow individually, as a team, and as a company.

ANTHONY
Software Engineering
If I could describe Snap-on Business Solutions in three words I would say, supportive, energetic, and encouraging. I could never dream of working at another company where the associate camaraderie would even come close to what we have at SBS.

SHERRY
Customer Support
The challenge to create a framework and reusable components to help serve customers more efficiently attracted me to this job. At Snap-on, I have great opportunities to develop my technical expertise with hands-on problem solving using the latest technologies.

---

SRINI
Software Architecture
While working for SBS, I have been able to work on a number of different technologies in my career and expand my knowledge in several areas. I have the opportunity to work on projects for products that ship all over the world. It is nice knowing that the products we develop and publish are an integral part of the businesses we serve.

TOMMY
Software Engineering
Jobs are one thing.

Significant work is another thing entirely.

We recognize the difference at Snap-on Business Solutions. Each day, we concentrate our efforts on being recognized as an Employer of Choice by our associates and our community.

Our entire team takes immense pride in *Who We Are*: a culture built by a diverse group of passionate, smart, professional associates, clearly focused on serving each other and our customers.
