SNAP-ON
DESKTOP PC

WINDOWS 10 PRO 64 BIT

DESKTOP PC WITH SSD

The solid state hard drive gives you a 25% performance increase, wrapped in a dealership-hardy computer.

Snap-on Desktop PC systems are built and tested to run Snap-on EPC applications with little to no down time. Special attention to unique environmental variables (dust, traffic, temperature, and humidity), along with a solid state drive (SSD) produce a commercial-grade appliance that delivers the reliability and performance needed to keep parts and service departments running smoothly.
