

Dual Monitor Stands

184-0109 (Vertical)

184-0110 (Horizontal)

Dual Monitor Stands

Dual monitors provide a more efficient workflow for anyone who needs more than one application open at a time. Toggling between the Snap-on EPC and your DMS is no longer required since they can both be displayed at the same time. Using a monitor stand lets you support dual monitors while conserving premium counter space.

Horizontal Stand

Supports flat-screen monitors up to 24"

Free standing (does not support optional bolt-through mode)

Made of high-grade steel and aluminum

Integrated cable management system

Tilt: -45 to + 45 degrees

Swivel: 360 degrees

Rotate: 360 degrees

Vertical Stand

Supports flat-screen monitors up to 24"

Free standing with optional bolt-through mode to hold stand to counter top

Made of high-grade steel and aluminum

Integrated cable management system

Tilt: -15 to + 15 degrees

Swivel: 360 degrees

Rotate: 360 degrees

Center post: 28.5" high
