

SNAP-ON

HARDWARE SOLUTIONS

DEALERSHIP TESTED, SNAP-ON
SUPPORTED, SNAP-ON GUARANTEED

A strategic investment in Snap-on equipment ensures the success of your parts and service departments, and makes a positive impact on your bottom line.

SNAP-ON KNOWS HARDWARE

For rugged, fully-supported computer systems, monitors, printers, or hardware accessories for your parts and service departments, Snap-on delivers:

- ✓ Durability and rock-solid performance in any dealership environment.
- ✓ Extreme serviceability and an optimal customer experience.
- ✓ Security, support, and confidence in the knowledge that you are partnering with the best in the business.

Our commercial-grade equipment is Snap-on tested, certified, optimized, and guaranteed to meet the demands of your dealership environment now and into the future. Our highly-trained technicians will install and perfectly configure your Snap-on equipment to keep your unique parts and service operations running smoothly and at optimum efficiency.

ADVANCED COMPUTING SYSTEMS

Snap-on delivers computing systems designed for dealerships of any size and style. Whether you are a single-brand dealership serving your local community, or a regional dealership group that provides parts and service for multiple brands, we understand what makes you different and will provide solutions that enhance the unique business footprint of your dealership.

- ✓ **Network Systems:** Our commercial-grade equipment is guaranteed to keep up with the demands of your dealership environment. Our servers deliver the speed needed to serve multiworkstation and multi-application environments typical in a range of dealerships.
- ✓ **Standalone Systems:** Snap-on offers a full line of standalone devices to ensure that your parts and service departments operate at peak efficiency.
- ✓ **Mini PCs:** A small, powerful package that mounts on the back of your monitor and features 16 GB of RAM and a 1 TB Solid State Drive (SSD) to provide plenty of performance. Minimal power, minimal heat, and minimal cooling ensure better reliability and longer life.

SNAP-ON HARDWARE SOLUTIONS

MONITORS AND PRINTERS

Reimagine your computing experience with monitors and printers that deliver peak efficiency for your parts and service departments. For high-capacity printers that fit on your desktop and double as a scanners and copiers, or for professional-grade monitors in UHD or standard formats, Snap-on has you covered.

And—as always—Snap-on designs, tests, and certifies all its equipment for the rigors of any dealership environment.

HARDWARE ACCESSORIES

A range of accessories can enhance the functionality of any Snap-on system. In addition to monitors and printers, we offer the following:

Dual Monitor Stands: Made of high-grade steel and aluminum, and featuring integrated cable management systems, our monitor stands provide efficiency in verticle or horizontal configurations.

Ergonomics Kits: Hours spent on the parts counter or service desk can be exhausting and uncomfortable. Snap-on's ErgoWork kits provide essential items that improve your work environment. Contoured, cushioned floor mats, Snap-on tested mouse and keyboard wrist supports, and even a Snap-on branded metal mouse pad combine to help create a more comfortable, healthy workspace.

Cables: Snap-on provides cables of all types and lengths that will help you connect and configure your equipment for maximum efficiency and productivity.

THE NEXT STEP

Interested in learning more? Contact your Snap-on account manager for details about the many hardware options offered by Snap-on, or visit our website at: www.sbs.snapon.com.

You can also take advantage of Snap-on's unique hardware audit program during any installation or service event. Our highly-trained hardware professionals will conduct a thorough review of your dealership's hardware and make no-obligation recommendations to improve its efficiency and reliability.
