

Sell more parts, each and every day.

Whenever someone purchases a bike, a boat, a sled, or equipment from your shop, you have an opportunity to create an enthusiastic, life-long customer. With an easy to use interface and game-changing features, PartsManager Pro helps turn that opportunity into reality.

APPLICATION FEATURES:

Web access delivers up-to-date parts data

- No DVDs, no installation, no manual updates

Robust OneSearch capability

- Just type what you know and PMP Pro finds what you need.
- Type full or partial model number, name, or type.
- Enter a VIN/PID (if provided by manufacturer).
- Type a part number, name, or remark.

Cross-catalog searches

- See where parts are used, in the active catalog or across all the catalogs.

Advanced DMS integration

- PMP Pro integrates seamlessly with most dealer management systems (DMS).
- View real-time inventory and customer pricing in PMP Pro.
- Transfer picklists directly to your DMS.

Detailed parts information

- Detailed diagrams to help you find the right part
- Supersession and history on most parts
- Part specifications
- Pricing

Customized layout

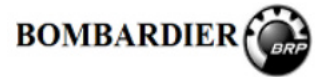

- Graphical or list views to best suit your preferences

Additional Features

- Create estimates directly from your picklist
- Add your own notes to parts or illustrations
- Save work orders and organize them into folders for future reference

PARTS DATA FOR ALL YOUR OEMS IN THE SAME PLACE:

PMP Pro delivers parts data for all the brands you service from a single screen.

Sell more parts, each and every day.
