

Illustration Window

The Illustration window consists of two primary sections: the Illustration and Parts List. Menus and navigation tools provide additional functionality.
* Some features may vary depending on your market.

The screenshot shows the GM Parts Connect interface. The top navigation bar includes a search bar, a VIN filter, and a year filter. The main area is split into two panes: the Illustration pane on the left and the Parts List pane on the right. The Illustration pane shows a technical drawing of a fuel injector rail with numbered callouts. The Parts List pane shows a table of parts with columns for Call #, Part #, Group, H, Description, Usage, Year, and Qty. Annotations with red arrows point to various features and controls.

Annotations:

- Type a VIN, Plate, or Repair Order
- Displays the navigation path or job name.
- Click to open the Search Results window.
- View the recommended fluids & lubricants.
- View the Top 6 maintenance parts for the vehicle.
- Click arrows for next or previous image.
- Click a navigation bar hyperlink to go to its level of navigation.
- Click a filter checkbox to remove or reapply filtering.
- Open one of these menus to access EPC tools and features or to change settings.
- Access the Shopping Cart.
- Print the illustration, parts list, or shopping list.
- Open General Information.
- Type here to narrow part results.
- Click a group number to see part usage information.
- Click a dot to open the Part Details window.
- Click an icon to display illustration in full screen, zoom in, zoom out, fit image to window, view or add a note, email the illustration, show all parts, or view part usage for selected parts.
- Click an illustration callout to display only its part in the part
- A circled callout indicates a single-use
- View Part History for the part.
- Click a grey cart icon to add the part to the shopping cart.
- Click and drag to resize the panes.
- * Click a part number to see where else the part is used.
- Click an icon in this column to view part details.
- Go back a screen, open navigation history, or return to the home page.
- Display VIN and RPO Information.
- Opens a new tab for another job.
- Start a new vehicle search using the identifiers available to you. Depending on your location and licensing, you can search by VIN, License Plate, or Repair Order (RO) Number by selecting the desired option.

Shopping Cart Window

The Shopping Cart page lists the parts you've added, allowing you to review quantities, pricing, and make changes before checkout. Icons provide additional functionality.

* Some features may vary depending on your market.

Opens the Manage Shopping Cart window that lets you open, organize, rename, or delete saved shopping lists.

Save the Shopping Cart.

Copy all part numbers to paste to another location.

Opens the Estimate window to create an estimate.

Add part to the Shopping Cart.

Email Shopping Cart.

Clear the Shopping Cart of all parts.

Opens Part Details window for the part selected.

Select Customer Pay or Warranty from the Pay Type dropdown.

Select the Price to display in the Shopping Cart.

Displays the amount of parts in the Shopping Cart.

Closes the Shopping Cart.

View Product Safety Information.

Delete the selected part.

Each line displays Pricing for the individual part.

Price Effectivity date.

Navigates to the side-by-side page for the chosen part

Displays the part quantity.

Displays the package quantity for the part.

Displays the total cost of all listed parts using the chosen pricing preferences.

The screenshot shows the GM Parts Connect Shopping Cart interface. At the top, there's a navigation bar with a search bar and a 'Shopping Cart' link. Below the navigation bar, there's a table of parts. Each row represents a part added to the cart, including details like part name, GM number, notes, usage, year, and pricing. The table has columns for 'Qty', 'Pkg Qty', 'Labor' (Hours, Rate, Cost), and 'Prices' (List, Trade, Dealer). At the bottom, there's a summary section showing the total cost and a 'Totals' row.

	Qty	Pkg Qty	Labor			Prices		
			Hours	Rate	Cost	List	Trade	Dealer
MIRROR/S RR VIEW GM # 84350235 Notes: (FROSTED RIMLESS GDO ACCESSORY LT SENSITIVE)(INSTALL 0.10)(0.28 KG) (CONNECTOR IS IN-LINE POSITION)(VERTICAL)(10.185) Usage: XR,XS(Z6) (W/ACSR GARAGE DOOR OPENER) Year: 2023-2024 Group: 21.410 H: [Icons: Add, Edit, Delete, Copy, Email, Print, Clear]	1	1				295.00	250.75	221.25

Exploring New Features

The improved Search experience in GM Parts Connect is now powered by Natural Language Search through the Snap-on Digital Engine. This enhancement makes it faster and easier for you to find the right OEM parts—no exact part names required.

What's New?

Natural Language Search

Instead of memorizing specific terminology, simply type what you would naturally say—such as “front brake pads” or search the last 8 digits of a VIN and “o2 sensor” and get immediate results. The Snap-on Digital Engine interprets your wording and instantly returns the most relevant OEM part.

Smarter, More Accurate Results

Behind the scenes, the Snap-on Digital Engine sorts through 3.5 million OEM parts and over 3 billion validated repair records.

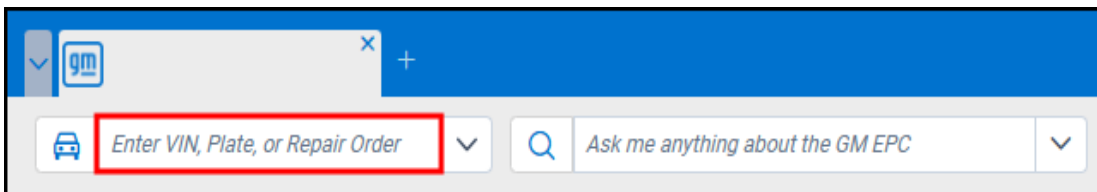

This extensive data set helps deliver precise, targeted results that match real-world repair patterns.

How It Helps You

1. Faster part decisions with results matched to how you naturally search
2. Reduced onboarding time—new employees can search without memorizing catalog terms
3. Accelerated lookups so you can work more efficiently
4. More intuitive search experience, even for complex or uncertain part descriptions

Search Multiple Ways from the Home Screen

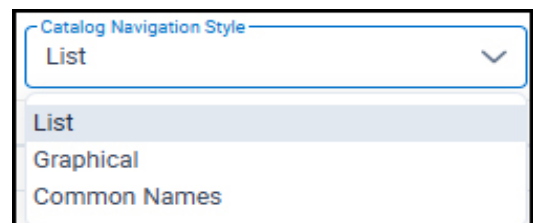

Enter a VIN, Plate, or Repair Order and GM Parts Connect will set instantly to the correct model.

Catalog Navigation Style

GM Parts Connect gives you the choice of the Catalog Navigation Style you want to use. Select from the following choices.

- List - Choose this to navigate through the catalog using text-based menus.
- Graphical - Choose this option when looking up parts for specific sections of the vehicle.
- Common Names - Choose this when looking up common parts.
